TDS3000B Series

Digital Phosphor Oscilloscopes

TDS3TRG and TDS3FFT Application Modules

071-1221-00

Effective with TDS3000B firmware version 3.21, the functionality of the TDS3TRG Advanced Trigger and the TDS3FFT Fast Fourier Transform application modules is built into all TDS3000B series oscilloscopes. Therefore TDS3000B series oscilloscopes no longer ship with TDS3TRG and TDS3FFT application modules. Note that installing these modules in TDS3000B oscilloscopes with version 3.21 firmware causes no adverse effect on the instrument operation.
